

The Fetal Medicine
Foundation

12th World Congress in Fetal Medicine

Marbella 2013

Live scanning demonstration

- **Date :** Tuesday 25th June 2013
- **Time :** 14:00 ~ 14:30
- **Speaker :** Dr. Tullio Ghi, Department of Obstetrics and Gynecology, University Hospital of Bologna, Italy
- **Topic :** "Expert brain scanning in 2D and 3D with a new eye on the cortical fissures"

Please visit us on our booth in the exhibition area for more information.

12th World Congress in Fetal Medicine

Sunday 23rd June 2013

09:20-10:40	Perinatal surgery and long term outcome
10:40-11:00	Endoscopic pediatric surgery
11:30-12:40	Spina bifida: Diagnosis and fetal surgery
12:40-13:00	Tissue engineering in the perinatal period
15:00-15:50	Fetal / placental tumors
15:50-16:30	Diaphragmatic hernia and other lung diseases
16:30-17:00	Embryo reduction
18:00-20:00	Ultrasound and delivery
21:00-22:30	Welcome reception

Monday 24th June 2013

09:00-09:50	Inverting the pyramid of pregnancy care
09:50-11:00	Topics in twins
11:30-13:00	Complications of MC twins
17:00-18:00	Presentation of fetal surgical anomalies
18:00-20:00	Ultrasound in early pregnancy
	Preimplantation screening
	Fetal treatment of Down syndrome

Tuesday 25th June 2013

09:00-13:00	Fetal echocardiography
17:00-20:00	Cell free DNA testing in maternal blood
21:00-02:45	Dinner party

Wednesday 26th June 2013

09:00-10:30	Neurosonography
10:30-11:00	Perinatal necropsy
11:30-13:00	Preterm birth: Prediction and prevention
14:00-16:40	Normal and abnormal fetal growth
18:00-18:45	Diagnosis and management of FGR
18:45-19:40	Cytomegalovirus infection
19:40-20:00	Maternal rejuvenating effect of pregnancy

Thursday 27th June 2013

09:00-10:30	Preeclampsia: Prediction and prevention
10:30-11:00	Ultrasound markers of aneuploidy
11:30-11:50	Fetomaternal immune cross-talk
11:50-12:30	Fetal anomalies
12:30-14:00	Presentation of interesting cases
16:00-24:00	Trip to Ronda

Sunday 23rd June 2013

08:00-09:10 Registration
09:10-09:20 Welcome to the World Congress

Kypros Nicolaides (UK)

Eurofoetus Meeting: Fetal and postnatal surgery

09:20-10:40 Perinatal surgery and long term outcome
Discussants: Alan Flake (USA), Jan Deprest (Belgium)

09:20-09:40 Abdominal wall defects
09:40-10:00 Esophageal atresia
10:00-10:20 Diaphragmatic hernia
10:20-10:40 Oropharyngeal and neck masses

Dick Tibboel (Netherlands)
Paolo De Coppi (UK)
Dick Tibboel (Netherlands)
Vincent Van der Poorten (Belgium)

10:40-11:00 Endoscopic pediatric surgery

Alan Flake (USA)

11:00-11:30 Coffee break

11:30-12:40 Spina bifida: Diagnosis and fetal surgery
Discussants: Douglas Wilson (Canada), Alan Flake (USA)

11:30-11:40 Imaging of spinal cord malformations
11:40-12:00 Fetal surgery and novel therapies for spina bifida
12:00-12:10 Spina bifida: Early experience with open fetal surgery
12:10-12:20 Spina bifida: Prenatal care after open fetal surgery
12:20-12:30 Spina bifida: Short-term outcome after open fetal surgery
12:30-12:40 Obstetrical outcomes after open fetal surgery

Anna Maroto (Spain)
Alan Flake (USA)
Martin Meuli (Switzerland)
Kelly Bennett (USA)
Antonio Moron (Brazil)
Douglas Wilson (Canada)

12:40-13:00 Tissue engineering in the perinatal period

Paolo De Coppi (UK)

13:00-14:00 Lunch break

15:00-15:50 Fetal / placental tumors
Discussants: Yves Ville (France), Jan Deprest (Belgium)

15:00-15:10 Chorioangioma: Laser surgery vs sclerotherapy
15:10-15:20 Neck lymphangioma: Intracystic injection of OK-432
15:20-15:30 Fetal goiter in a euthyroid mother: Diagnosis and treatment
15:30-15:40 Sacro-coccygeal teratoma: Minimally invasive therapy
15:40-15:50 Potential of high-intensity focused ultrasound in fetal surgery

Krzysztof Preis (Poland)
Jakub Kornacki (Poland)
Eva Hoseth (Denmark)
Tim Van Mieghem (Canada)
Shunsuke Osawa (Japan)

15:50-16:30 Diaphragmatic hernia and other lung diseases
Discussants: Jan Deprest (Belgium), Yves Ville (France)

15:50-16:00 CDH: Preferential streaming in DV toward the right atrium
16:00-16:10 CDH: Fetal cardiac function pre and post FETO
16:10-16:20 CDH: Potential for non invasive fetal therapy
16:20-16:30 Pulmonary hypoplasia: Maternal hyperoxygenation test

Jochen Ritgen (Germany)
Aline Tenzer (Germany)
Jan Deprest (Belgium)
Rima Bader (Saudi Arabia)

Sunday 23rd June 2013

16:30-17:00

Embryo reduction

Discussants: Yves Ville (France), Dick Oepkes (Netherlands)

16:30-16:40

ER: Use of CVS prior to reduction

16:40-16:50

ER: Factors affecting outcome

16:50-17:00

ER: DC-TA triplets

Mara Rosner (USA)

Sofia Fournier (Spain)

Petya Chaveeva (UK)

18:00-20:00

Ultrasound and delivery

Discussants: Gerry Visser (France), Kypros Nicolaides (UK)

18:00-18:10

1st trimester ultrasound measurement of pelvic inlet

18:10-18:25

Ultrasound in the labor ward

18:25-18:35

Quantitative elastography of uterine cervix

18:35-18:55

Simulation training for obstetric emergencies

18:55-19:15

Effect of vaginal delivery on pelvic floor

19:15-19:40

Prevention of pelvic floor dysfunction

19:40-20:00

Women are designed to deliver vaginally

Isabella Wah (Hong Kong)

Francisca Molina (Spain)

Lene Christensen (Denmark)

Carl Weiner (USA)

Jan Deprest (Belgium)

Hans Dietz (Australia)

Gerry Visser (Netherlands)

21:00-22:30

Welcome reception with flamenco show

HEALTHY LIFE**

PerkinElmer is working to make pregnancy safer

From confirmation of pregnancy to successful birth, PerkinElmer provides the tools you need to offer peace of mind at every stage.

Our latest innovations support:

- Detection of pre-eclampsia high risk cases in the first trimester to allow timely commencement of treatment
- Targeted diagnostic information on common and severe aneuploidies and microdeletion/duplication syndrome regions
- Fragile X diagnostic and screening solutions

www.perkinelmer.com

Products are not available in all countries. Please check the availability with your local PerkinElmer representative.

For the Better

Monday 24th June 2013

09:00-09:50 Inverting the pyramid of pregnancy care

09:00-09:20	The concept
09:20-09:30	Atypicality index and adverse outcome
09:30-09:50	Difficulties in implementation

Kypros Nicolaides (UK)
David Wright (UK)
Douglas Wilson (Canada)

09:50-11:00 Topics in twins

Discussants: Yves Ville (France), Liesbeth Lewi (Belgium)

09:50-10:00	Intertwin CRL discordance and adverse outcome
10:00-10:10	Intertwin birth weight discordance and adverse outcome
10:10-10:30	MC twins: Placental complications
10:30-10:40	MC twins: Cerebral lesions after demise of one fetus
10:40-10:50	Monoamniotic twins: Perinatal management
10:50-11:00	Fetal growth in MC and DC twins

Ann Tabor (Denmark)
Line Rode (Denmark)
Liesbeth Lewi (Belgium)
Birgit Jatzko (Austria)
Tim Van Mieghem (Canada)
Makarios Eleftheriades (Greece)

11:00-11:30 Coffee break

11:30-13:00 Complications of MC twins

Discussants: Yves Ville (France), Dick Oepkes (Netherlands)

11:30-11:45	Laser for TTTS: The Solomon trial
11:45-11:55	Laser for TTTS: US and MRI evaluation of fetal / neonatal brain
11:55-12:05	Laser for TTTS: Outcome and developmental follow-up
12:05-12:15	Laser for TTTS: Neurodevelopmental screening in survivors
12:15-12:30	Long-term outcome of children after laser therapy for TTTS
12:30-12:40	Laser for TTTS: Maternal water-electrolyte changes after surgery
12:40-12:50	Laser for TTTS: Early maternal complications
12:50-13:00	Early TTTS: Prediction of survival from fetal cardiac function

Dick Oepkes (Netherlands)
Fabio Peralta (Brazil)
Nicolas Sananes (France)
Fabio Peralta (Brazil)
Kurt Hecher (Germany)
Eugenia Antolin (Spain)
Gihad Chalouhi (France)
Nicolas Sananes (France)

13:00-14:00 Lunch break

17:00-18:00 Presentation of fetal surgical anomalies

Presenters: Christoph Berg (Germany), Annegret Geipel (Germany), Oliver Kagan (Germany)

18:00-20:00 Special lectures

Discussants: Yves Ville (France), Kypros Nicolaides (UK)

18:00-18:15	TAPS: Prevalence, management and outcome
18:15-18:30	TRAP sequence: Early vs late intervention
18:30-18:40	MR imaging of the abdomen in pregnancy
18:40-19:20	Ultrasound in early pregnancy
19:20-19:40	Preimplantation screening
19:40-20:00	Fetal treatment of Down syndrome

Yves Ville (France)
Christoph Berg (Germany)
Jacques Jani (Belgium)
Dirk Timmerman (Belgium)
Dagan Wells (UK)
Diana Bianchi (USA)

“Help yourself and the computer will help you along the way”

Speakers : Yves Ville and Jean Pierre Bernard

Time: 14:30-14:50 Date: Tuesday, 25th of June

SILVER SPONSOR

Harmony™
PRENATAL TEST

The Harmony test assesses the risk for fetal chromosome conditions such as Down syndrome and includes an optional analysis of fetal sex and sex chromosome (X,Y) conditions.

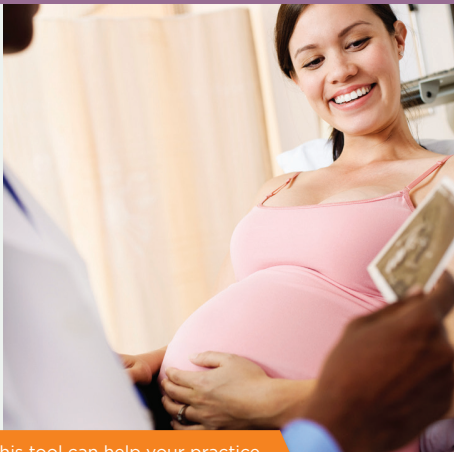

Safe, Simple, Accurate, Affordable

The Harmony Prenatal Test analyzes the relative number of chromosomes in maternal blood to provide an individualized and dependable risk assessment for fetal trisomy with high sensitivity and specificity.¹⁻⁷

Studied in over 6,000 patients, including >2,000 average-risk women¹⁻⁷

	Detection Rate		False Positive Rate
T21		>99% (231 of 232)	<0.1%
T18		>98% (103 of 105)	<0.1%
T13		8 of 10	<0.1%

X and Y analysis is >99% accurate for fetal sex. It can also assess risk for sex chromosome conditions with test performance varying by the type of condition detected.⁷

Visit www.harmonytest.com for more information on how this tool can help your practice.

Using a simple blood draw from the mother, Panorama provides >99% accuracy for T21, T18, and T13 even with fetal fractions as low as 4%

Tuesday 25th June 2013

09:00-11:00

Fetal echocardiography

Discussants: Lindsey Allan (UK), Rabiha Chaoui (Germany)

09:00-09:10

Ultrasound assessment of fetal heart throughout pregnancy

09:10-09:20

Echocardiography: We don't need volumes, we need colors

09:20-09:30

Corrected transposition of great arteries

09:30-09:40

Neurodevelopmental delay in congenital heart disease

09:40-09:50

HLH, aortic stenosis with ventriculocoronary arterial fistula

09:50-10:00

HLH: Cardiac function and pulmonary vasoreactivity

10:00-10:10

Pulmonary stenosis in MC twins

10:10-10:20

Cardiovascular remodeling in fetuses from diabetic mothers

10:20-10:30

Maternal and fetal angiogenic imbalance in fetal cardiac defects

10:30-10:40

Interventional cardiac program in Poland

10:40-11:00

Impact of prenatal life on cardiovascular long term health

Makarios Eleftheriades (Greece)

Stefania Tudorache (Romania)

Aina Ruiz (Spain)

Asma Khalil (UK)

Roland Axt-Fliedner (Germany)

Yves Ville (France)

Jean Pierre Bernard (France)

17:00-20:00

Cell free DNA testing in maternal blood

Discussants: Peter Benn (USA), Diana Bianchi (USA), The-Hung Bui (Sweden), Howard Cuckle (UK), Mark Evans (USA), Kypros Nicolaides (UK), Eugene Pergament (USA), Ann Tabor (Denmark)

Lessons from National implementation of the combined test

Risk of fetal loss from invasive testing

Consequence of replacing invasive with cfDNA testing

Molecular testing of maternal blood or fetal tissue

Combined array CGH plus SNP array for prenatal testing

cfDNA testing: Performance for trisomies 21,18 and 13

cfDNA testing: Failure to obtain results

cfDNA testing: False positives

cfDNA testing: Clinical implementation at 10 weeks

cfDNA testing: Sub-chromosome detection

cfDNA testing: Secondary findings

cfDNA testing: Multiple pregnancies

cfDNA testing: Sex chromosome aneuploidies

cfDNA testing: Triploidy

cfDNA testing: Mosaicism

cfDNA testing: Implication of cost on routine screening

cfDNA testing: Model for contingent screening

Isolation of fetal cells from maternal blood

Wednesday 26th June 2013

09:00-10:30

Neurosonography

Discussants: Eduard Gratacos (Spain), Rabih Chaoui (Germany)

09:00-09:10

1st trimester BPD in fetuses with holoprosencephaly

Waldo Sepulveda (Chile)

09:10-09:20

Choroid plexuses: Early sign of developmental laterality

Reem Abu-Rustum (Lebanon)

09:20-09:30

Abnormal 4th ventricle choroid plexus: Posterior fossa defects

Tamara Illescas (Spain)

09:30-09:45

Advanced brain ultrasound

Elisenda Eixarch (Spain)

09:45-10:00

Posterior fossa defects

Magdalena Sanz (Spain)

10:00-10:10

Expanding indications for fetal brain MRI

Eldad Katorza (Israel)

10:10-10:30

Clinical cases illustrating complementary use of US and MRI

Eixarch and Sanz (Spain)

10:30-11:00

Perinatal necropsy

Virtual autopsy by ultrasound

Neil Sebire (UK)

Carmela Votino (Belgium)

11:00-11:30

Coffee break

11:30-13:00

Preterm birth: Prediction and prevention

Discussants: Roberto Romero (USA), Elena Carreras (Spain), Kypros Nicolaides (UK)

11:30-11:40

1st trimester maternal serum azurocidin and preterm birth

Ishraq Dhaifalah (Czech Republic)

11:40-11:50

Early prediction of preterm birth: Isthmus vs cervical length

Nicolas Sananes (France)

11:50-12:00

Cervical angle as predictor of spontaneous preterm birth

Alvaro Sepulveda-Martinez (Chile)

12:00-12:10

Relation of cervical length and cervical collagen concentration

Iben Sundtoft (Denmark)

12:10-12:20

RCT: Progesterone vs placebo after episode of preterm labor

Montse Palacio (Spain)

12:20-12:30

RCT: Arabin pessary in prevention of preterm birth

Kypros Nicolaides (UK)

12:30-13:00

Prediction and prevention of preterm birth

Roberto Romero (USA)

13:00-14:00

Lunch break

14:00-16:40

Normal and abnormal fetal growth

Discussants: Eduard Gratacos (Spain), Ahmet Baschat (USA), Gerry Visser (Netherlands)

14:00-14:15

Optimal fetal growth

Gerry Visser (Netherlands)

14:15-14:25

Effects of maternal obstructive sleep apnea on fetal growth

Susan Walker (Australia)

14:25-14:40

Early-FGR: Mortality and neonatal morbidity (TRUFFLE trial)

Katia Bilardo (Netherlands)

14:40-14:50

Late-FGR: Functional organization of neonatal brain networks

Elisenda Eixarch (Spain)

14:50-15:00

Late FGR: Insular cortex and corpus callosum morphometry

Gabriela Egaña (Spain)

15:00-15:10

FGR: Prediction of infant hypertension and arterial remodeling

Monica Cruz (Spain)

15:10-15:20

FGR: Placental volume and perfusion by MRI

Iris Derwig (UK)

15:20-15:30

FGR: Placental BOLD MRI during maternal hyperoxia

Anne Sorensen (Denmark)

15:30-15:40

Safety of in utero MRI at 1.5 T

Brigitte Strizek (Belgium)

15:40-15:50

Feto-placental Dopplers and placental vascular function

Lucy Higgins (UK)

15:50-16:00

Abnormal fetal growth in maternal diabetes

Gerry Visser (Netherlands)

16:00-16:10

BMI and pregnancy weight gain in prediction of macrosomia

Argyro Syngelaki (UK)

16:10-16:20

FGR outcome: Prediction by angiogenic factors vs Doppler

Silvia Lobmaier (Spain)

16:20-16:30

Screening for late-FGR at 32 weeks

Spyros Bakalis (UK)

16:30-16:40

Hypoxia in late-FGR: Quantitative CTG and Doppler

Peter Ignatov (Bulgaria)

18:00-18:45

Aspects on the diagnosis and management of FGR

Discussants: Eduard Gratacos (Spain), Ahmet Baschat (USA), Gerry Visser (Netherlands)

Optimal criteria to define FGR vs. SGA

Eduard Gratacos (Spain)

Planning surveillance and delivery in FGR

Ahmet Baschat (USA)

Wednesday 26th June 2013

18:45-19:40

Cytomegalovirus infection

Discussants: Yves Ville (France), Ahmet Bashat (USA)

18:45-18:55

CMV: Discordance in twins according to chorionicity

18:55-19:05

CMV: Serum IGM as risk factor for vertical transmission

19:05-19:15

Transplacental IgG antibody transfer in twin pregnancies

19:15-19:40

CMV: Update and future directions

Anna Gonce (Spain)

Shlomo Lipitz (Israel)

Maria Brizot (Brazil)

Yves Ville (France)

19:40-20:00

Maternal rejuvenating effect of pregnancy

09:00-10:30

Preeclampsia: Prediction and prevention

Discussants: Ahmet Baschat (USA), Emmanuel Bujold (Canada), Kypros Nicolaides (UK)

09:00-09:10

1st trimester biomarkers after previous PE

Ahmet Baschat (USA)

09:10-09:20

1st trimester prediction of PE: value of angiogenic factors

Francesca Crovetto (Spain)

09:20-09:30

Screening for PE by cardiovascular system monitoring

Kasia Bobrowska (Poland)

09:30-09:45

Prevention by low-dose aspirin

Emmanuel Bujold (Canada)

09:45-09:55

Longitudinal changes in biomarkers of PE

Asma Khalil (UK)

09:55-10:05

3rd trimester combined screening for PE

Jonathan Lai (UK)

10:05-10:15
